2. COURSE DESCRIPTION AND OBJECTIVES

2.1. COURSE DESCRIPTION:

The most relevant perspectives and approaches which attempt to explain the nature, structure and functioning of organizations. As part of the Organizational Theory, we will study organizational design, and leadership roles which creates and transforms the organizational structure of an organization.

2.2. OBJECTIVES:

This course aims to provide a general understanding of organizational theory.

There will be three different objectives to be considered:

Firstly: Learning about the most relevant organizational theories and understanding the different perspectives adopt to analyse business phenomena.

Secondly: Learning about the organizational design function, design parameters, contextual factors and basic organizational models.

Finally: Learning how to diagnose organizational problems and giving possible solutions.

3. ACADEMIC CONTEXT

3.1. PREREQUISITES:

There are no special requirements. However, it is recommended to have previously studied Business Administration.

3.2. CONTEXT WITHIN THE DEGREE:

The study of the most relevant theories that were made in the twentieth century in order to understand the function of organizations, which will provide a multidisciplinary view of business phenomena.

In addition, we will study "organizational design" as one of the functions that make up the Management Process, which will be discussed in detail in the second year. This will be the students' first step into the issues related to Business Administration.

3.3. RECOMMENDATIONS:

SELF-STUDY	90.00	3.60
ASSESSMENT AND GRADING	15.00	0.60
TOTAL	150.00	6.00

6. ASSESSMENT AND GRADING

The final grade will be calculated according to the following formula:

$$0.7A + 0.3B = \text{FINAL GRADE}$$

A) General teaching (70%):

Students will take one written exam in June which, if passed, will exempt them from sitting the final exam in July. A minimum score of 5 points (on a 10-pt.scale) is required in order to pass.

B) Practical teaching (30%):

Scores obtained on activities carried out and/or assigned in practice and development sessions will be valid for official exams in June, July and December. Students who have not attended class sessions and/or not completed activities & assignments successfully will be evaluated out of a maximum of 70%, thus forfeiting any chance to obtain the remaining 30%. This 30% will be divided as follows: 80% will be obtained from the activities presented in class and 20% will come from practical work that will be included in the June and July exams.

Student mobility:

Those UPO students who are not able to attend seminars due to being abroad under official mobility programs (Socrates-Erasmus, Séneca, Atlanticus...) will have an additional exam, or work that will be clearly defined, in order to obtain the 50% of the grade corresponding to the continuous evaluation. Students in this situation must inform the responsible lecturers at the beginning of the academic year, before the 15th of March, 2010.

Please Note: In compliance with Title II, Chapter II, Articles 12.2 and 14.3 of the *Normativa de Régimen Académico y de Evaluación del Alumnado* (signed in *Consejo de Gobierno de la Universidad Pablo de Olavide de Sevilla* on July 18, 2006): "With regard to essays or other homework, plagiarism and/or the use of unoriginal material—including information obtained from online sources—without explicit and proper citing (and, where required, the express permission of the author), may warrant a grade of **FAIL** for the module,

in addition to any other applicable academic sanctions warranted by academic misconduct on the part of students. [...] After consulting professors, students and any other university bodies deemed necessary, the Director of the Department responsible for the module in question will decide on the need for further measures including an official academic integrity hearing.”
